TITLE 7—AGRICULTURE

Subtitle A—Office of the Secretary of Agriculture

PART 9—PRICE SUPPORT OF AGRICULTURAL COMMODITIES

SUPPORT PRICES FOR HOGS

Public announcement has heretofore been made (6 F. R. 4644; 7 F. R. 422, 9986; 8 F. R. 12524; 9 F. R. 4837) pursuant to the provisions of section 4 (a) of the act approved July 1, 1941 (55 Stat. 498) as amended October 2, 1942 (56 Stat. 768) February 28, 1944 (58 Stat. 105) that it was necessary to encourage the expansion of the production of certain agricultural commodities, including hogs. Hogs were first designated as a commodity subject to support prices under the above legislation on August 29, 1941.

Hog support prices have heretofore been based on a marketing year for hogs running from October 1 of one calendar year through September 30 of the following calendar-year. Hog production, however, consists of two crops—a spring crop and a fall crop. The marketing season for the spring crop is normally the period October 1 through March 31. The marketing season for the fall crop is normally the period April 1 through September 30. In the circumstances it is desirable that the support price for each crop be based upon the parity price of hogs as of the beginning of the marketing season for such crop. It is therefore announced that the support price for the spring crop of hogs will be based upon the parity price of hogs as of October 1 and the support price for the fall crop of hogs will be based upon the parity price for hogs as of April 1. The September 15 parity, the latest available as of October 1, will be used in determining the parity price of hogs as of October 1 and the March 15 parity, the latest available parity as of April 1, will be used in determining the parity price of hogs as of April 1.

Accordingly, based upon the March 15 parity for hogs, the following provision is hereby substituted for the corresponding provisions relating to the level and period of support of hogs in the announcement heretofore made:

—§ 9.1 *Hogs.* The support price for good and choice barrow and gilt butcher

hogs for the period April 1, 1947, through September 30, 1947, shall average, on an annual basis with seasonal variations, \$15.60 per hundred pounds at Chicago with appropriate differentials for other markets. (Sec. 4 (a) 55 Stat. 498, as amended, 15 U. S. C. Sup., 713a-8)

Done at Washington, D. C., this 15th day of April 1947.

[SEAL] N. E. Dodd,
Acting Secretary of Agriculture.

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.343 *Orange Regulation 117—(a) Findings.* (1) Pursuant to the amended marketing agreement and the order, as amended (7 CFR, Cum. Supp., 933.1 et seq., 12 F. R. 9471) regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement

PART 306—CLAIMS AGAINST THE UNITED STATES

MISCELLANEOUS AMENDMENTS

Part 306 is amended in the following respects:

Section 306.28 is revoked effective June 30, 1947, and §§ 306.30 and 306.40 are superseded by the following:

§ 306.28 *Recovered personnel.* [Revoked.]

§ 306.30 *Apprehension of absentees and deserters—(a) Military personnel.* All military personnel are authorized to arrest absentees and deserters, whatever may be the grade of the person making the arrest or the person arrested.

(b) *Civil personnel.* Any civil officer or citizen may arrest, detain, and deliver an absentee or deserter when authorized by an officer of the Army. Such authority may be given by distributing Form 45 (Descriptive List of Absentee Wanted by United States Army) or in reply to an inquiry in accordance with paragraph (c) of this section.

(c) *Inquiry from civil officer or citizen.* Upon receipt of word by a post or organization commander from a civil officer or other citizen that such civilian intends to arrest, or has arrested, an alleged absentee or deserter from his post or organization, the commander will ascertain such person's status and will promptly inform the inquirer and the soldier's organization commander (if other than his own) concerning it, by telephone, telegraph, or other expeditious means. If the person held is an absentee or deserter, the commander will request the person holding him either to deliver him to, or request a guard from the nearest military post, or hold him awaiting the arrival of the guard, and will inform such person of his right to payment for his services. See § 306.32.

(d) *Guards.* Upon receipt of information that a civil officer, or other civilian, is holding an absentee or deserter, the post commander will cause a guard to be sent with all reasonable speed and in any event not later than 24 hours after receipt of the notification. If it is impracticable for the commanding officer receiving the notification to provide a guard from his command, he will make arrangements with a commander capable of providing a guard, or will report the case to the commanding general of the army concerned.

(e) *Commanding generals of armies (ZI).* Commanding generals of armies (ZI) will take steps to secure the active cooperation of all State and local police forces, and such other officials and organizations as they may deem useful in

sure that absentees and deserters are returned promptly to military control.

§ 306.40 *Property of absentee.* (a) When a soldier absents himself without leave, his company commander will cause the public property, including clothing, for which the absentee is responsible, to be searched for and secured. His personal effects will be inventoried and retained with his organization until he returns to military control, or until he is dropped from the rolls as AWOL. In the latter case they will be disposed of as follows:

(1) Decorations, medals, discharges, and other military papers will be forwarded to The Adjutant General.

(2) Articles having material value will be disposed of by auction sale within the organization and the proceeds therefrom, together with any money left by the absentee, will be deposited with a disbursing officer, whose receipt will be taken and forwarded to The Adjutant General. The receipt will show the nature of the deposit, whether from the proceeds of sale, or money left by the absentee.

(3) Articles having no salable value will be destroyed.

(b) In no case will the effects of an absentee, or any proceeds of the sale thereof, be turned over to his relatives, nor any payment made therefrom on any account, except with the approval of the War Department.

TITLE 15—COMMERCE

Chapter III—Bureau of Foreign and Domestic Commerce, Department of Commerce

PART 360—ORGANIZATION, FUNCTIONS AND PROCEDURE OF THE OFFICE OF INTERNATIONAL TRADE

BRITISH TOKEN IMPORT PLAN

Subpart B is amended by adding thereto a new § 360.15A to read as follows:

§ 360.15A *Procedure relating to the British Token Import Plan.* The procedure governing administration of the British Token Import Plan, and the role of the Office of International Trade therein, have been revised as set forth in this section:

(a) *Introduction—(1) What the plan is.* The "British Token Import Plan" is an arrangement with the British Government which permits United States manufacturers, their authorized agents, or other qualified exporters, with established pre-war trade connections in the United Kingdom (England, Scotland, Wales, and Northern Ireland) to export to that area token shipments of specified commodities, the importation of which the British Government prohibited as a

war measure. Under the plan, the British Government will permit imports in a yearly amount not to exceed 20% of the value of the average annual shipments of the specified commodities of each qualified exporter during a base period consisting of the years 1936, 1937, and 1938. The British Government requires appropriate evidence, issued under authority of the United States Government, that manufacturers wishing to take advantage of opportunities under the arrangement did in fact make shipments of the commodities to the United Kingdom during the base period. The Office of International Trade has agreed to act as certifying agent and issue appropriate certificates, in the form of token scrip, which the exporter forwards to the British importer for presentation to the British Board of Trade as a basis for obtaining an import license.

(2) *How to secure information.* Announcements regarding the British Token Import Plan will no longer appear in Current Export Bulletins or Comprehensive Export Schedules. Hereafter, all official announcements regarding the plan will be published in the "Foreign Commerce Weekly," subscription to which may be arranged through the Superintendent of Documents, Government Printing Office, Washington 25, D. C. Announcements will also be made in press releases which will be available to trade journals. Copies of announcements (including lists of commodities currently subject to the plan) as well as all forms needed in connection with the plan may be obtained from the Office of International Trade, Areas Branch, British Token Import Plan Unit, Washington, D. C., or from any of the Field Offices of the Department of Commerce.

(3) *Effect on export restrictions.* The issuance of token scrip in no way affects United States export restrictions which may be applicable to commodities coming under the plan.

(b) *Procedure for obtaining certification of prewar exports—(1) Eligibility.* (i) Manufacturers, or their duly authorized agents, who exported any of the items on the approved list to the United Kingdom (England, Scotland, Wales, and Northern Ireland) during the base period 1936, 1937, and 1938, are eligible for certification under the plan. "Manufacturer" means an individual, firm or corporation which produces directly or indirectly products sold through established markets. "Authorized agent" means an export merchant, export commissioner, or any other person who has been authorized by the manufacturer to handle products produced by the manufacturer. Such an individual cannot be certified under the plan without a letter from the manufacturer addressed to the Office of International Trade, specifically authorizing him to apply for certification for the manufacturer's total basic quota or for a portion of the total basic quota. Such authorization must be submitted for each calendar year or otherwise must state the period of time for which the authorization is made. "Basic quota" means 20% of the value of manufacturer's average annual shipments of the product to the United Kingdom during the base period years 1936, 1937, and 1938. If a manu-

facturer authorizes an agent, or agents, to apply for certification of only a portion of the quota, the manufacturer may apply for certification of the balance.

(ii) Individuals or firms, other than manufacturers, having an established export trade from the United States to the United Kingdom during the years 1936, 1937, and 1938 in the items on the approved list, may be eligible if they can demonstrate clearly that such trade was developed by them and not by a manufacturer. Any person who is not a manufacturer, or an authorized agent, who feels that he is eligible for participation under the plan should request a determination of eligibility from the Office of International Trade, Areas Branch, British Token Import Plan Unit. Such a request should fully identify his export connections during the years 1936, 1937, and 1938 with the United Kingdom and should explain in detail his reasons for requesting eligibility under the plan.

(2) *Applying for certification*—(i) *Time and manner of submitting application.* Applications for certification shall be made in triplicate on Form IT-558 (Rev.) "Request for Certification of Pre-War Exports to the United Kingdom," and submitted to the Office of International Trade, Areas Branch, British Token Import Plan Unit, Washington, D. C. A separate application, Form IT-558 (Rev.) shall be submitted for each commodity group covered by the plan and shall give the information requested on the application form. The commodity description, section 3, should include brand name(s) for all branded products included in the applicant's export figures for the base period. The quantity and value of exports listed under section 6 should cover only the permitted types of each commodity shown on the approved list. All data shown on the form must be based upon actual records or other documentary evidence. Only those applications will be considered which have the certification on the bottom of the form executed.

Applicants who received token scrip during the year 1946 should indicate, under section 5, the IT case number assigned to such scrip, in addition to stating their own reference number, but the data submitted in the previous application should be rechecked before insertion in the 1947 form. Because of the haste with which the plan was put into operation last year and the difficulties of securing data that corresponded exactly with commodity definitions, etc., there has been a tendency for pre-war exports, in some cases, to be over-estimated. Applicants are, therefore, urged to re-examine their figures carefully and make whatever corrections may be necessary in filling out their 1947 applications.

All applications should be filed as early in the year as possible. With respect to commodities on the approved list, as of March 10, 1947, the following conditions will apply:

(a) Only those applications received on or before April 30, 1947, can be assured of consideration as claims for full annual basic quotas.

(b) Applications received later than April 30, 1947, may require treatment as partial claims entitling applicants to allotments of scrip only in proportion to the number of months remaining after the applications are received.

(c) No applications for 1947 scrip can be accepted after September 30, 1947.

With respect to any commodity which may be added to the approved list after March 10, 1947, program operation dates will be appropriately adjusted and will be announced when notice is published of the inclusion of the new commodity under the plan.

(ii) *Acknowledgment card (Form IT-116)* Acknowledgment card, Form IT-116, shall be filed in by the applicant and submitted with each application. The portion of the card returned to the applicant will inform him of the case number assigned to the application.

(iii) *Evidence of authority.* If an application is signed by an agent, it will be necessary to have evidence of authorization as explained above.

(3) *Action by office of International Trade*—(i) *Numbering and certifying applications.* Upon receipt of Form IT-553 (Rev.) by the Office of International Trade, a number is assigned to the application for identification purposes. The first part of the number corresponds to the commodity group number assigned to the item as shown on the approved list. The second part of the number is a numerical case number. For example, number 17-435 indicates that the application covers "Lawnmowers," since "17" is the commodity group for lawnmowers and "435" is the numerical case number.

When an applicant has been approved for participation under the plan, the Department of Commerce certification stamp is placed on all three copies of the application. The original copy is returned to the applicant, together with token scrip. The duplicate copy is retained by the Office of International Trade, and the triplicate copy is forwarded to the British Board of Trade. If scrip cannot be issued for the total amount of the basic quota requested on the application, notice will be sent to the applicant and to the Board of Trade of the amount of scrip which is being issued as an interim allotment pending verification or adjustment of the claim as explained in subdivision (ii) of this subparagraph.

(ii) *Issuance of token scrip.* When an application is approved in full or in part, scrip will be issued in denominations requested by the applicant under section 7 of Form IT-558 (Rev.) totalling, to the nearest \$25, an amount determined as explained in the subdivisions (a) and (b) of this subdivision. When issued, scrip is given a number identical with the number assigned to the certified application, Form IT-558 (Rev.). Scrip is neither transferable nor negotiable. It cannot be transferred by the certified manufacturer to another manufacturer of the same commodity or to a manufacturer of another product, nor can it be used by the holder for a product other than the one for which it was issued.

Under the terms of the plan, as established by the British Government, import

licenses will be issued by the British Board of Trade, up to 20% of each United States applicant's pre-war exports into the United Kingdom. Since the total exports of these items, as reported by individual applicants, should not exceed 20% of the total imports for each commodity during the base period, the pre-war exports certified by the Office of International Trade and scrip issued under such certification must be kept within the overall national quotas computed from official trade statistics and mutually accepted by the Department of Commerce and the British Board of Trade.

In order to operate the plan with the flexibility needed for convenience of American exporters, and, at the same time, with assurance that total national quotas will not be exceeded in any way which would endanger the continuance of the program, it is necessary to issue scrip on an installment basis. It is to be expected that scrip can be issued during the year to the full amount of each applicant's basic quota, but since errors are possible and time is therefore required before there can be complete assurance that all data are accurate, the quantities of scrip will be issued from time to time in installments as follows:

(a) *Applications filed on or before April 30, 1947 (or in the case of new commodities, within two months after announcement of the addition of the commodity to the approved list).* For applications filed by April 30, 1947, in accordance with instructions in this section, the procedure will be, in general, to issue scrip immediately upon receipt of the application in an amount totaling approximately one-third of the applicant's basic quota. As soon as possible after April 30, 1947 (or after two months, in the case of new commodities) a second installment of scrip will be issued in as large amount as practicable. If it is clear that there will be no danger of the total of all applications covering a specific commodity exceeding the over-all national quota for that commodity, scrip will be issued for the full remainder of the individual's basic quota. The amount of the initial and subsequent installments of scrip will vary for different commodities. Applicants having justifiable need for the full issue of scrip may request that arrangements be made to have their records and documents examined by a Department of Commerce representative. If this is done, and it is found that the full claim is substantiated, scrip will then be issued for the total unissued balance of the basic quota. Final issue of all scrip will be made as soon as possible after closing date for filing applications, September 30, 1947.

(b) *Applications filed after April 30, 1947 but prior to October 1, 1947.* Applications filed after April 30, 1947, will be certified in amounts consistent with any balance of the over-all national quota which was not applied for on or before April 30, 1947. This will apply similarly to new commodity applications which are received more than two months after announcement of the addition of the commodity to the approved list. In these cases scrip will also be

issued in installments as explained in subdivision (a) of this subdivision.

(4) *Use of token scrip by certified exporter* When the certified exporter receives an order from a United Kingdom importer, he should forward to the importer sufficient scrip, to the nearest \$25 to cover the order. The importer will attach the scrip to his application for an import permit. The British Board of Trade, upon receipt of the import license application and accompanying scrip, will, prior to issuance of an import permit, check the application and scrip against the certified copy of the Form IT-558 (Rev.) forwarded from the Office of International Trade.

(5) *Validity period of scrip.* Scrip issued for 1947 will be valid and accepted by the British Board of Trade through February 29, 1948.

(c) *Procedure for requesting additions to list.* Manufacturers or other eligible persons who exported to the United Kingdom (England, Scotland, Wales, and Northern Ireland) during the years 1936, 1937, and 1938, products other than those on the approved list, may request that the plan be made applicable to such products. A separate request must be made for each commodity by filing, in triplicate, Form IT-570, "Request for Addition of Commodity to the British Token Import Plan," with the Office of International Trade, Areas Branch, British Token Import Plan Unit, Washington, D. C. The Office of International Trade forwards two copies of the form to the American Embassy in London for transmittal to the British Board of Trade. The completeness of the information furnished on the form will be a major factor in determining acceptance by the Board of Trade. Effectiveness of presentation will be increased if manufacturers who exported to the United Kingdom during the base period make a joint request through their trade association. The applicant will be notified of whatever action is taken by the Board of Trade and announcement of all additions to the list will be made in press releases and the Foreign Commerce Weekly. (Pub. Law 404, 79th Cong., 60 Stat. 237)

PARAGRAPH 1. There is inserted immediately preceding § 113.90 the following:

SEC. 8 [EXCISE TAX ACT OF 1947].

(c) Effective with respect to tickets sold or issued on or after the first day of the first month which begins more than twenty days after the date of the enactment of this act, section 1806 of the Internal Revenue Code (relating to stamp tax on passage tickets) is hereby repealed.

PAR. 2. Section 113.90 is amended as follows:

(A) By inserting immediately following the heading "Scope of tax" the following:

(a) *Termination.* Effective with respect to tickets sold or issued on or after the first day of the first month beginning more than twenty days after the date of the enactment of the Excise Tax Act of 1947, section 1806 of the Internal Revenue Code was repealed by section 8 (c) of such act. The act was approved March 11, 1947, and therefore the tax on passage tickets and the regulations in this part relating to such tickets are inapplicable to such tickets sold or issued on or after April 1, 1947.

(B) By inserting immediately preceding the first sentence of such section as it appeared prior to amendment by this Treasury decision, as the beginning of the second paragraph of such section, the following:

(b) *Application of tax prior to the termination date.* Because of the short period of time between the date of the

repealing act and the effective date of the repeal, it is found impracticable to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4 (c) of said act. * * *

This Treasury decision shall be effective on April 1, 1947.

§ 320.38 *Rate of tax.* With respect to articles sold during the period October 1, 1941, through March 31, 1944, both dates inclusive, the tax is payable by the retailer at the rate of 10 percent of the price for which sold. With respect to articles sold on or after April 1, 1944, the tax is payable by the retailer at the rate of 20 percent of the price for which sold, except that in the case of watches selling at retail for \$65 or less, and alarm clocks selling at retail for \$5 or less, the tax is at the rate of 10 percent of the price for which sold. The price for which an article is sold shall be determined in accordance with the provisions of §§ 320.5 to 320.10, inclusive, and § 320.74.

SEC. 7. (a) Section 2401 of the Internal Revenue Code (relating to the tax on furs) is hereby amended by inserting after the words "chief value" a comma and the following: "but only if such value is more than three times the value of the next most valuable component material"

(b) The amendment made by subsection (a) shall apply in the case of articles sold on or after the first day of the first month which begins more than twenty days after the date of the enactment of this act.

PAR. 9. Section 320.40 is amended to read as follows:

§ 320.40 *Scope of tax.* The tax attaches to the sale by the retailer of certain articles as follows:

- (a) Articles made of fur on the hide or pelt sold on or after October 1, 1941,
- (b) Articles of which fur on the hide or pelt is the component material of chief value sold during the period Octo-

ber 1, 1941, through March 31, 1947, both dates inclusive; and

(c) Articles of which fur on the hide or pelt is a component material, the value of which is more than three times the value of the next most valuable component material, sold on or after April 1, 1947.

The tax does not apply to sales of raw fur.

The tax is not confined to the sale of fur articles used as wearing apparel but applies to sales of any fur article suitable for any use, such as fur rugs, fur robes, etc.

In determining, for the purposes of (b) and (c) of this section whether the sale of an article of which fur is a component material is subject to tax, the value of such fur at the time of assembly of the article must be compared to the value of each other single component at such time.

Where fur is a component material of an article and exemption with respect to the sale of such article is claimed on the ground that the value of the fur as compared with that of the most valuable of the other component materials is not such as to render the sale taxable under (b) or (c) of this section, the retailer must maintain adequate records or have in his possession proper documentary evidence to establish that fact to the satisfaction of the Commissioner. In the absence of such records or documentary evidence, the tax must be paid with respect to the sale of such article at retail.

PAR. 10. Section 320.42, as renumbered and amended by Treasury Decision 5353, is further amended to read as follows:

§ 320.42 *Rate of tax.* With respect to articles sold during the period October 1, 1941, through March 31, 1944, both dates inclusive, the tax is payable by the retailer at the rate of 10 percent of the price for which sold. With respect to articles sold on or after April 1, 1944, the tax is payable by the retailer at the rate of 20 percent of the price for which sold. The price for which an article is sold shall be determined in accordance with the provisions of §§ 320.5 to 320.10, inclusive, and § 320.74.

PAR. 11. Immediately preceding § 320.50, there is inserted the following:

EXCISE TAX ACT OF 1947 (PUB. LAW 17, 80TH CONG.) APPROVED MARCH 11, 1947

SEC. 2. Section 1650 of the Internal Revenue Code (war tax rates of certain miscellaneous taxes) is hereby amended by striking out "and ending on the first day of the first month which begins six months or more after the date of the termination of hostilities in the present war"

PAR. 12. Section 320.51, as amended by Treasury Decision 5353, is further amended to read as follows:

§ 320.51 *Rate of tax.* With respect to articles sold during the period October 1, 1941, through March 31, 1944, both dates inclusive, the tax is payable by the retailer at the rate of 10 percent of the price for which sold. With respect to articles sold on or after April 1, 1944, the tax is payable by the retailer at the rate of 20 percent of the price for which sold. The price for which an article is

sold shall be determined in accordance with the provisions of §§ 320.5 to 320.10, inclusive, and § 320.74.

Because of the short period of time remaining between March 11, 1947, the date of approval of the Excise Tax Act of 1947, and April 1, 1947, the date on which, pursuant to such act, the amendment to section 2401 of the Internal Revenue Code becomes effective, and because of the technical nature of the amendments made herein, it is found that it is impracticable and unnecessary to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4 (c) of said act.

This Treasury decision shall be effective on April 1, 1947.

**PART 4600—RUBBER, SYNTHETIC RUBBER
AND PRODUCTS THEREOF**

[Rubber Order R-1, Appendix II, as Amended
April 18, 1947]

APPENDIX II—MANUFACTURING REGULATIONS
Findings under sec. 4 (a) of Public Law 404, 79th Congress.

In connection with the issuance of the following amendments, pursuant to section 4 (a) of the Administrative Procedure Act (Public Law 404, 79th Congress, 60 Stat. 237), the Civilian Production Administration finds that compliance with the notice, public rule making procedure and effective date requirements of the said Act is impractical and contrary to the public interest, in that the time intervening between the approval of Public Law 24, 80th Congress, on which the following amendments are based, and the date when the said amendments must become effective in order to effectuate the policy of said Public Law 24, is insufficient for such compliance; and any delay in the effective date of the following amendments will jeopardize the orderly allocation of natural and synthetic rubber and the production of synthetic rubber, contrary to the public interest. Therefore, the Civilian Production Administration, pursuant to Public Law 24, 80th Congress, hereby takes the following action:

Rubber Order R-1, Appendix II, as amended November 29, 1946, is hereby amended to read as follows:

APPENDIX II—MANUFACTURING REGULATIONS

Appendix II to Rubber Order R-1 establishes certain compounding proportions and manufacturing regulations for many of the products enumerated in Appendix I to Rubber Order R-1. These compounding proportions and manufacturing regulations are set out in the lists appearing below.

(a) *Limitation on production of rubber products.* No person may manufacture any

of the products covered by the lists set out in this Appendix II except in accordance with the restrictions and regulations in the list applicable to the products.

(b) *General provisions.* (1) The total rubber hydrocarbon (designated total RHC in this Appendix) is the sum total of natural rubber, synthetic rubber, the rubber hydrocarbon value of reclaimed rubber and the RHC value of master batches or compounds of natural rubber or natural rubber latex. The rubber hydrocarbon value of reclaimed rubber shall be calculated from the rubber value of reclaimed rubber as certified by the manufacturer of the reclaimed rubber and shall be determined by the "difference" or "indirect" method. Natural rubber includes the rubber hydrocarbon value of natural rubber master batches or compounds as certified by the manufacturer of master batches or compounds which include natural rubber or natural rubber latex.

(2) "X" when used in the tables appearing in the lists, means that the materials so designated may be consumed in the minimum quantities required by any manufacturer who has received authorization to accept delivery on Form CPA-4483, subject to any special restrictions or provisions applicable to the particular products.

**LIST 2—MANUFACTURE OF TIRE AND FLAP
CURING BAGS**

(a) *Manufacturing regulations.* The use of natural rubber as required in the manufacture of all sizes and types of tire and flap curing bags is permitted.

(b) *Marking of synthetic curing bags.* All curing bags containing synthetic rubber shall have a permanent circumferential colored strip approximately three-eighths inch wide applied on the base section of the bag. The appropriate color shall be determined from List 6.

LIST 6—TUBE IDENTIFICATION

Identification of synthetic rubbers. Identification of the various types of synthetic rubbers shall be effected by designating each type by a letter and a color, as follows:

Letter and color:	Type of synthetic

I—Light Blue-----	GR-I (Butyl)

**LIST 7—MANUFACTURE OF TIRE AND TUBE
REPAIR MATERIALS**

(a) *Manufacturing regulations.* Natural rubber as required may be used in the manufacture of tire and tube repair materials, except as provided in List 13 hereof.

LIST 8—MANUFACTURE OF TIRES

(a) *General provisions.* (1) Natural rubber latex may be consumed in the treatment of rayon and cotton cord, provided the overall average by weight of natural rubber latex so consumed does not exceed 7.5 pounds per 1000 pounds (dry weight) of total rayon and cotton cord treated. Natural rubber latex may be consumed in the treatment of nylon cord without limit.

(b) *Manufacturing regulations.* Natural rubber may be consumed in the manufacture of tires, rubber tracks and blocks as follows:

(1) Solid tires of all types except where elsewhere listed, as required:

(2) Rubber tracks and track blocks, as required.

(3) In the sizes and types of pneumatic tire groups listed in Table A below, only the maximum percent of natural rubber specified:

Table A—All Types of Pneumatic Tires

Note: Table A revised April 1947.

¹ Individual sizes may exceed the specified maximum percentage, provided the average natural rubber content of all sizes within the groups as listed in this Table A, does not exceed the indicated maximum percentage. No tire within the groups permitted 94 percent or more natural rubber shall be manufactured with a natural rubber content more than 5% greater than the maximum allowable percentage of total RHC for tires in those groups. No tire within the groups permitted 67% or less shall be manufactured with a natural rubber content more than 10% greater than the maximum allowable percentage of total RHC, for tires in each group. For example, a tire in the group in which a maximum of 23% of natural rubber is permitted, may be made with 33%.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter III—Coast Guard: Inspection and Navigation

[CGFR 47-21]

PART 303—REGULATIONS TO PROMOTE THE SAFETY OF LIFE ON NAVIGABLE WATERS DURING REGATTAS OR MARINE PARADES

CLOSING OF OAKLAND ESTUARY, OAKLAND, CALIF.

Pursuant to the authority vested in me by section 1, act of April 28, 1908 (Title 46, U. S. C., sec. 454) and Reorganization Plan No. 3 of 1946, and at the request of the University of California, I find it necessary, in order to promote the safety of life on navigable waters, that the section of the Oakland Estuary, Oakland, California, bounded on the west by the line extending across the Estuary from the foot of Broadway in Oakland and bounded on the east by the Fruitvale Avenue Bridge shall be closed to all through navigation and that the movement of all other craft in the area shall be subject to the control of the U. S. Coast Guard Regatta Patrol Officer in accordance with the regulations for marine regattas or marine parades in 33 CFR, Part 303, for the University of California Crew Races, between the hours of 2:00 p. m. and 5:00 p. m. on the following dates:

Saturday, May 3, 1947.

Saturday, May 10, 1947.

Saturday, May 31, 1947.

It is hereby found that compliance with the notice, public rule making procedures, and effective date requirements of the Administrative Procedure Act (Public Law 404, 79th Cong., 60 Stat. 238), is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this order is based became available and when this order must become effective is insufficient for such compliance; however, pursuant to notices published in the local newspapers and notice to mariners, a public hearing was held in San Francisco, California, and no objections were raised by interested parties to the closing of the channel for the races.

Dated: April 15, 1947.

**CHICAGO AND NORTH WESTERN RAILWAY CO.
FINDINGS AND ORDER GRANTING PERMISSION
TO EXTEND UNLISTED TRADING PRIVILEGES**

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 15th day of April A. D. 1947.

The Boston Stock Exchange has made application to the Commission pursuant to Section 12 (f) (2) of the Securities Exchange Act of 1934 and Rules X-12F-1 for permission to extend unlisted trading privileges to the Voting Trust Certificates for the No Par Value Common Stock of Chicago and North Western Railway Company.

After appropriate notice and opportunity for hearing and in the absence of any request by any interested person for hearing on this matter, the Commission on the basis of the facts submitted in the application makes the following findings:

(1) That this security is listed and registered on the Chicago Stock Exchange and the New York Stock Exchange; that the geographical area deemed to constitute the vicinity of the Boston Stock Exchange for the purpose of this application is the New England States exclusive of Fairfield County, Connecticut; that out of a total of 800,977 shares outstanding, 50,490 shares are owned by 828 shareholders in the vicinity of the Boston Stock Exchange; and that in the vicinity of the Boston Stock Exchange there were 907 transactions involving 61,260 shares from January 1, 1946, to December 31, 1946;

(2) That sufficient public distribution of, and sufficient public trading activity in, this security exist in the vicinity of the applicant exchange to render the extension of unlisted trading privileges thereto appropriate in the public interest and for the protection of investors; and

(3) That the extension of unlisted trading privileges on the applicant exchange to this security is otherwise appropriate in the public interest and for the protection of investors.

Accordingly it is ordered, Pursuant to section 12 (f) (2) of the Securities Ex-

change Act of 1934, that the application of the Boston Stock Exchange for permission to extend unlisted trading privileges to the Voting Trust Certificates for the No Par Value Common Stock of Chicago and North Western Railway Company be, and the same is, hereby granted.
